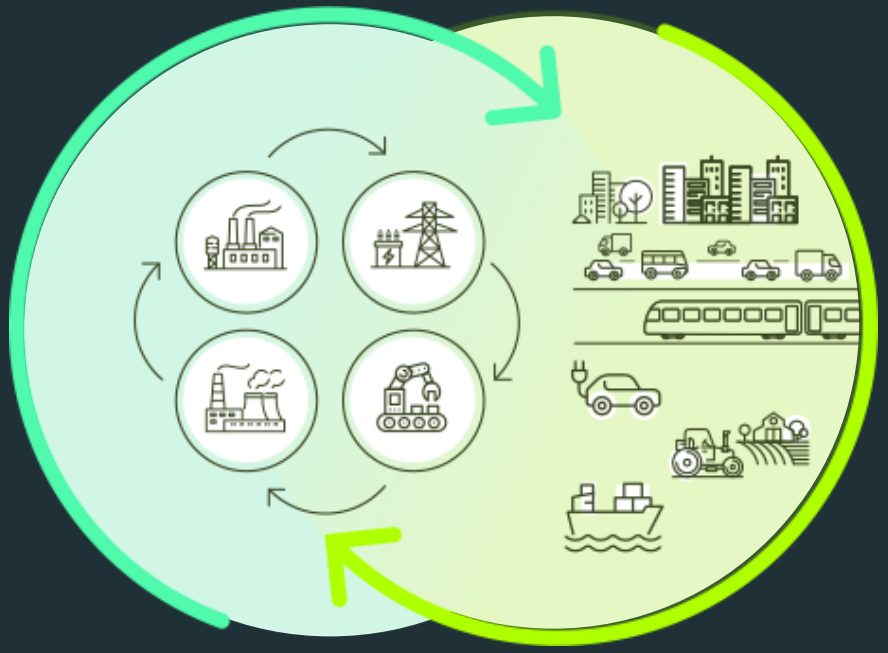
Mission and objectives

Hubs4Circularity
COMMUNITY OF PRACTICE

Accelerating the scale-up of local industrial-urban ecosystems across Europe

- **Empower process industries and regions & cities** to co-create symbiotic circular ecosystems
- **Connect industrial parks and regions** and actively engage with **emerging Hubs,** providing a KPI toolkit, independent evaluation of existing and potential Hubs, and policy recommendations
- **Promote creation, exchange, and consolidation of knowledge** to overcome bottlenecks through a digital knowledge platform



Project roadmap

Hubs4Circularity
COMMUNITY OF PRACTICE

Community building & sustainability

- Map regions, industries, technology providers, facilitators, research ✓
- Assess stakeholder needs and requirements ✓
- Launch digital knowledge platform ✓
- Collect tools, educational materials, good practices to support Hubs4Circularity ✓
- Deep-dives on challenges and solutions
- Develop key performance indicators for creating and scaling Hubs ✓
- Assess regions and industrial clusters for their Hubs4Circularity potential
- Roadmaps and project development support

COMMUNITY OF PRACTICE

Sign up at www.h4c-community.eu

Engaging the H4C Community of Practice

- Facilitating, organising, stimulating workshops and events to connect H4C practitioners and experts
- Searchable member database to find peers
- Discussion forum and Working Groups on H4C topics
- Matchmaking innovation challenges and (technology) solutions

Access to knowledge and tools

- H4C case studies, examples and learnings; SCALER overview of 100 sound industrial symbiosis opportunities
- An overview of relevant H4C skills profiles and training blueprint (+ access to training materials and platform)
- H4C guides and manuals for cities, regions, industries, communities and Hubs on industrial-urban symbiosis
- (Self) assessment tools for Hubs and organisations to evaluate (KPIs) or to support the industrial symbiosis exploitation opportunities
- Searchable database of funded IS, I-US, CE projects, patents and papers
- Relevant results (knowledge, tools, roadmaps) from publicly-funded IS, I-US and CE projects
- Funding Guide to advance Hubs4Circularity activity

Services to accelerate Hubs4Circularity

- Training and support on business modelling and governance models for H4C organisations / facilitators
- Training and support on funding and finance for H4Cs
- Training on industrial symbiosis and circular economy
- Support to build business-to-territory stakeholder networks
- Support data-collection and analysis for industrial symbiosis opportunity identification
- Support assessment of industrial symbiosis KPIs
- Technology scale-up support
